What is e-commerce?

E-commerce refers to a business model that allows companies and individuals to buy and sell goods and services over the Internet.

Types of e-commerce

- It is the direct sale of goods and services between businesses e.g Shopify

- It involves sales between business and customers. e.g Amazon

- It allows individuals to sell to one another, usually through a third-party site e.g eBay

- It lets individuals sell to businesses. e.g Google Adsen

The E-commerce Landscape

African online retail has been growing fast in recent years and this trend is forecasted to continue. We have the youngest and second largest population in the world. Thus, there is potential for a vast digital audience.

Identifying your Business model

What is a Business Model?

A business model is an outline of how a company plans to make money with its product and customer base in a specific market. At its core, a business model explains four things:

- What product or service you are to sell
- How you intend to market your product or service.
- How much is your expense
- How you expect to turn a profit

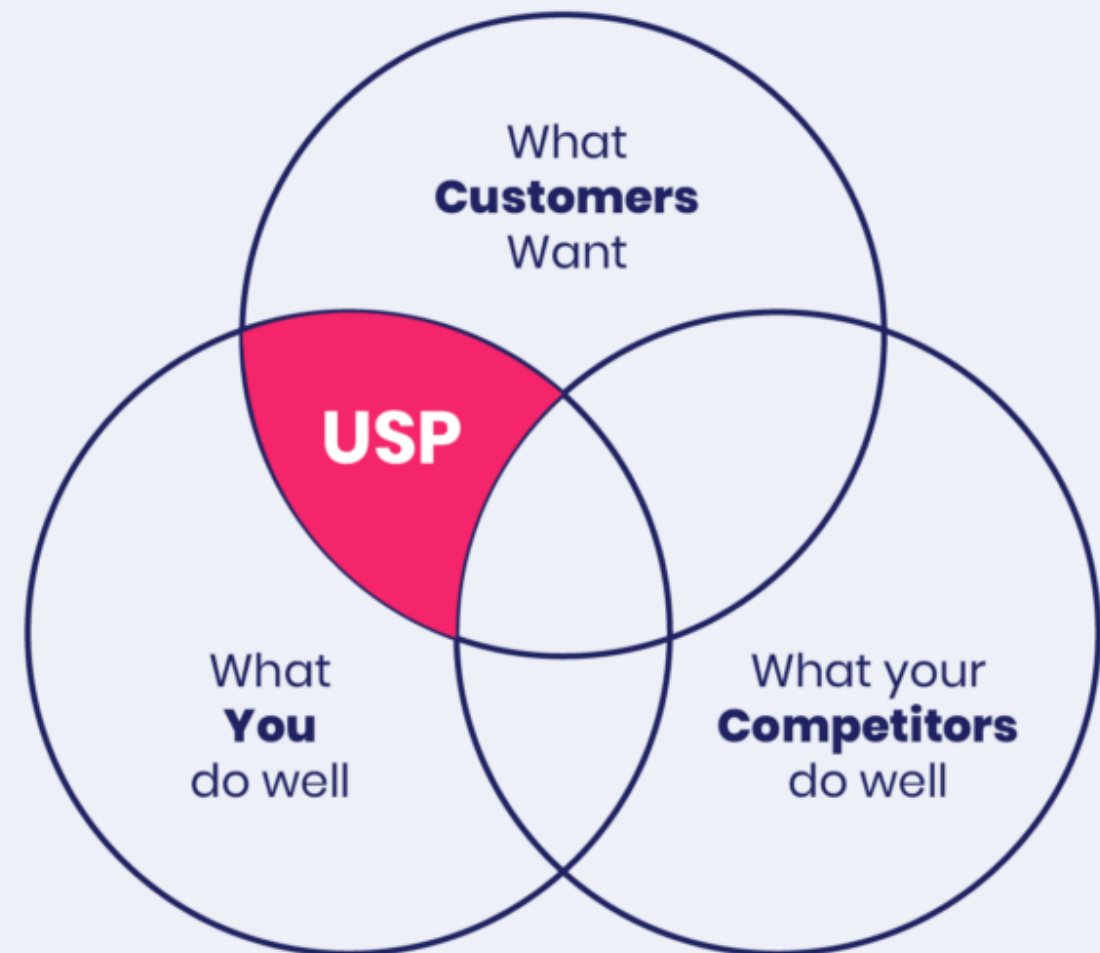

Identifying your Business model

Understand your Unique selling proposition

A unique selling proposition (USP) is what makes your eCommerce store better than your competitors. Your USP is embodied in your **brand, products, customer experience, and interactions.**

A USP should be:

Unique, memorable, and distinguishable from anyone else

Valued and appealing to your target audience

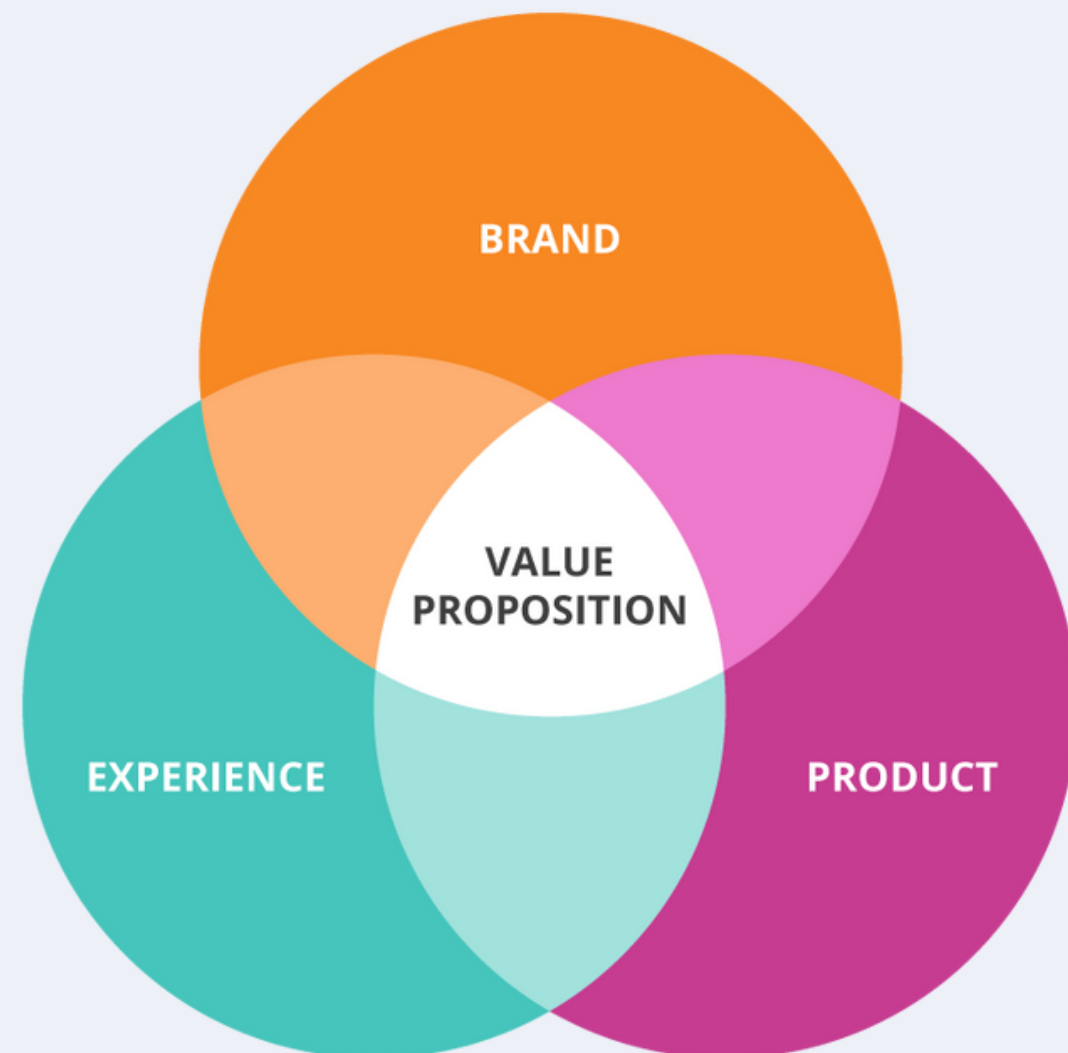

Something that you can deliver consistently

Identifying your Business model

Understand your value proposition

A value proposition highlights the consumer benefits of your product or service. It lays out why consumers should choose your brand or product rather than your competitors'.

A compelling value proposition meets three criteria:

Specific benefits your target customer will receive

How your product fix the customer's problem or improve their life

How well it sets you apart from competitors

E-commerce Marketing Strategy

There are overarching elements that you should be mindful of when running your e-commerce marketing campaigns. Consider these, and you drastically increase your chances of getting great results out of your e-commerce venture.

 **Create Content To Generate Backlinks**

 **Offer Subscriptions**

 **Use Urgency To Encourage Action**

 **Reviews And Ratings To Your Site**

 **Offer Exclusive Sales To Existing Customers**

 **Build A Loyalty Program**

 **Optimize Your Product Descriptions**

 **Offer Instant Discounts To New Customers**

 **Explore Partnerships**

Branding

Understand your value proposition

A value proposition highlights the consumer benefits of your product or service. It lays out why consumers should choose your brand or product rather than your competitors'.

Vision

Why did you create your product in the first place, beyond profit?

Value

Values are what is dear to you and your audience

Voice

This how your company comes across when you talk to your audience
